The Hiring manager,

Azubi Africa,

Spintext Road,

Accra, Ghana.

21<sup>st</sup> September, 2023.

Dear Mr. Kwabena Owusu,

As a recent Bachelor Science Computer Engineering graduate, I have spent the past several years immersing myself in data science and data analytics. I am excited to bring my acquired skills to Azubi Africa.

I have experience in data visualization using power bi and tableau and developing workflows to compare diverse data sources.

I have had the opportunity to intern as a Data Scientist/Data Analyst in these two companies; ThinkCE Technologies and Kumasi Hive. At Kumasi Hive, I help built dashboards for Alphagoal company with power bi which helped improve the company's sales profit by 50%. I worked and collaborated cross-functionally with the various departments. I have strong communication skills and experience in leading a team towards achieving a set goal.

With my background in managing large data sets and visualizing information, I can help Azubi Africa's data team to analyze the company's data and help build machine learning models for predicting marketing needs and trends thereby putting the company's cocoa products higher on the market.

Thank you very much for your time and consideration. I have attached my resume with my application. Please you can contact me on +233 0557367245 or [adubrightkwarteng11@gmail.com](mailto:adubrightkwarteng11@gmail.com) . I hope to hear from you soon

Thank you, [Bright Adu Kwarteng Snr]
